

DESIGN ARCHITECT

McMAHON has an immediate opening for a Design Architect in their Neenah, Wisconsin office.

McMAHON is currently seeking a self-motivated individual with the following qualifications:

- A Registered Architect with a minimum 5 years' experience and a special interest and ability in Architectural Design.
- This position will require working directly with building Owners to develop building programs, develop design concepts and to present design solutions. Excellent Communication and presentation skills are required.
- This position will require someone with "proficient" skills in Revit including the ability to create preliminary designs.

Job Description

This person will have the responsibility to work directly with the building owners and with the architectural team in the development of building designs and will be responsible to oversee those designs through the Construction Documents process.

Furnish letter of interest, resume and references in confidence to:
