

## **PLUMBING/FIRE PROTECTION DRAFTER/REVIT TECHNICIAN**

### Education

- Tech school, some college, or industry experience
- Drafting plumbing and fire protection systems with CAD and Revit is a minimum, and Associates degree is a plus.

### Experience

- Computer/technology savvy/BIM fluent
- Some experience drafting plumbing and FP systems, but BIM + Education is a plus
- Some experience in construction industry is a plus
- Revit plumbing systems design

### Aptitude

- Willing to learn BIM applications they may not be familiar with
- Self-motivated with ability to work within a team atmosphere
- Willing to learn other trades and fill in as needs arise in MEPFP department.

### Objectives for that person

- Produce design/construction documents utilizing Revit
- Participate and facilitate BIM coordination within multi-discipline project teams.
- Ability to take red-line mark ups and produce high quality systems drawings to meet client expectations
- An ideal candidate will learn plumbing and fire protection systems design from senior staff, and grow within the group beyond a drafting only position.
