

## **WATER RESOURCE ENGINEER**

Salary:	Open
Employer:	McMAHON
Category:	Engineering
Location:	Neenah, Wisconsin
Type:	Full-Time; May or June 2020 start date
Required Education:	Minimum Bachelor of Science degree in Civil and Environmental Engineering with an interest in hydrologic, hydraulic, and environmental engineering

**Job Description:** Assist with water resource-related projects at our Neenah, Wisconsin office.

McMAHON works on a variety of water resource related projects including storm sewers, culverts, bridges, open channels, floodplains, flood mitigation, peak discharge control, volume control, water quality, watershed restoration, lake restoration, stream/river restoration, shoreline restoration, and wetland restoration. We provide engineering services to cities, villages, townships, utility districts, sewerage districts, counties, school districts, businesses, developers, and landowners. We routinely provide professional services such as project management, planning, studies, design, permitting, bidding, construction, and grant / loan funding services.

### **Job Requirements:**

- Bachelor of Science degree in Civil and Environmental Engineering with an interest in environmental, hydrologic and hydraulic engineering.
- Entry level position (0 to 1-year experience).
- Positive, solution-oriented working with a multi-disciplinary team.
- Excellent interpersonal skills.
- Self-motivated with the desire to learn new skill sets.
- Strong communication and writing skills

McMAHON is a locally-owned company grounded in a team environment that provides competitive salary and outstanding benefit packages. If you are a self-motivated team player looking to grow your career, please consider contacting McMAHON.
