

WATER/WASTEWATER ENGINEER

McMahon Associates, Inc. has an excellent opportunity for a talented Water / Wastewater Engineer in our Neenah, Wisconsin office.

Description

As a Water/Wastewater Engineer, you will work directly with our municipal and industrial clients on the planning and design of environmental projects, including: water supply, storage, pumping, treatment and distribution systems; and wastewater collection, pumping, treatment, biosolids management and waste-to-energy systems. Responsibilities will include planning, modeling (hydraulic and process), technical studies, report writing, permitting, design, and start-up/operational assistance for these types of projects. You will work with a multi-disciplined in-house team of professionals and support staff, with an emphasis on a team and client-focused environment.

Qualifications

Minimum B.S. Degree in Civil Engineering (with an emphasis on environmental engineering) or Environmental Engineering required, with a minimum of 5 years of relevant experience. Must be proficient in Microsoft Office Suite (Word, Excel, PowerPoint). EIT Certification is a required. Proficiency in process/hydraulic modeling software is a plus. Ideal candidate will have strong communication and analytical skills.

McMahon Associates, Inc. is a locally-owned company of approximately 150 employees, grounded in a team environment that provides competitive salary and outstanding benefit packages. We are headquartered in Northeast Wisconsin, with remote offices in Machesney Park, Illinois and Valparaiso, Indiana. If you are a self-motivated team player looking to begin or grow your career, please consider contacting McMahon Associates, Inc.
