

RW Management – A McMahon Associates, Inc. Company is a Wisconsin-based consulting firm providing professional, high quality safety and emergency management consulting, project management and other related services to organizations throughout the United States and internationally. The professionals at RW possess expertise and experience at the highest levels of security management and training. This includes decades of Navy SEAL service and martial arts training.

A business, medical facility, school, sports complex, or place of worship can have the best security equipment available, but the most important and effective asset in prevention and response is its people. In addition to evaluating the physical attributes and detriments to security, we observe the people, process, procedures and interactions in your facility.

RW Management provides the following Safety & Emergency Management services:

- Comprehensive Security Assessments
- Assault Prevention Programs
- Threat Recognition & Verbal De-escalation Training
- Incident Action Plans
- Active Shooter Reaction
- Natural Disaster Response
- Post-Incident Recovery and Reunification Plans
- Security Team & Individual Training
- Tactical Training for Law Enforcement
