

McMahon Associates, Inc. offers **Public Management** through professionals who provide municipal management consulting, municipal operation reviews, interim management, labor negotiations and other related services to municipal organizations throughout the United States.

McMahon's experienced professionals possess in-depth knowledge of all relevant aspects of municipal operations administration, communications, organization, labor relations, safety, economics and standards. This allows us to provide clients with an independent and objective analysis of the desired scope of work, so that the policy boards can make knowledgeable and informed decisions.

We provide on-site assistance for municipal administrations, working with them to manage issues, make recommendations and help implement those recommendations. This allows municipalities to manage difficult transitions or issues with current management in place, as opposed to receiving results from an organizational study that provides extensive recommendations, but no resource or support to implement those recommendations.

**McMAHON provides the following  
Public Management services:**

- Municipal Management Consulting
- Interim Management (Administrators, Police, Fire & EMS)
- Municipal Recruitments
- Organizational Studies
- Department Operation Reviews
- Accreditation Management
- Consolidation / Shared Services Studies
- Municipal Labor Relations
- Policy & Procedure Analysis
- Planning, Design & Construction of Municipal Facilities
