

Professionals at McMahon Associates, Inc. provide municipal and public safety management consulting, municipal operation reviews, interim management, labor negotiations and other services related to municipal organizations throughout the United States. McMahon is also well-versed to address **School Safety** and specializes in security consulting and associated safety training for K-12 schools, municipalities, businesses and law enforcement agencies.

Safety and security in our communities' K-12 schools are a top priority, and we assist school administrators and staff by utilizing the highest level of assessment and training that can make a difference in the event of a potential security threat. We can collaborate with company architectural design professionals to provide comprehensive services needed to address safety and security concerns throughout planning, design and construction phases of any K-12 project.

McMAHON provides the following services related to school safety and security:

- Comprehensive Security Assessments
- Incident Action Plans
- Post-Incident Response, Recovery and Reunification Plans
