

### NOTE TO INTERESTED PARTIES:

Additional Project information at [www.mcmgrp.com](http://www.mcmgrp.com) under RESOURCES\In Construction...select the Belgium-2022 Storm Sewer & Street Reconstruction project. You can also get project Tweets by following <https://twitter.com/McMBelgium>

### Week of July 11 - 15

Soper Sewer and Water is currently working on the installation of storm sewer on Commerce Street, Park Street and Elm Street. The Fire station pond is 90% complete while the Elevator Lane pond is nearing 50%. Red Ant is on-site and currently boring under the Union Pacific Railway.

### Looking Ahead to Next Week:

Soper Sewer and Water will continue to install storm sewer on Commerce, Park, and Elm. Storm laterals to each property will be installed and property owners will soon be able to connect to the storm network. The existing pond on Elevator Lane will be pumped dry and excavation to connect the two ponds will be underway.

### Future Schedule:

Once the storm sewer is completed on Commerce, Park, and Elm, Soper's crews will mobilize to North, Elevator and Liberty to start installation of storm sewer. The two ponds will be completed and restored while being brought online to control storm water. Roadway excavation is scheduled to start on Commerce, Park, and Elm sometime in August.

### NOTES TO PUBLIC

A lot of work is currently being done on the east side of the project. Please drive with caution in construction areas. Soper is very accommodating and willing to work with residents for limited access to properties. Please be mindful of all workers in the construction zones.
