## Village of Belgium - 2022 Storm Sewer & Street Reconstruction

### NOTE TO INTERESTED PARTIES:

Additional Project information at [www.mcmgrp.com](http://www.mcmgrp.com) under RESOURCES\In Construction...select the Belgium-2022 Storm Sewer & Street Reconstruction project. You can also get project Tweets by following <https://twitter.com/McMBelgium>

### Week of July 25 - 29

Soper Sewer and Water has transitioned to installing storm sewer on Elevator Lane. The removal and grading crews have finished work on Commerce Street and have started work on Park Street. An additional crew has been floating around installing mini storm sewer and storm laterals to each individual property.

### NOTES TO PUBLIC

### Looking Ahead to Next Week:

Crews will continue to install storm sewer on the west side of the project. Once Elevator Lane is completed, the crew will finish the installation of the storm sewer in the easement areas. Pond excavation has been halted due to weather and is planning to continue work next week to finish the Elevator Lane pond.

### Future Schedule:

Soper crews are looking to complete the Storm sewer installation for the project in the next weeks ahead. Once all storm sewer is completed, the removal and grading crews will make fast work of removing the roadways and prepping for new curb, gutter and pavement. Concrete and paving crews will be moving in soon to start the restoration of the roadways.

The crews are now spread throughout the project working on many different utilities and excavations. Please drive with caution in construction areas. Contact the McMahon on-site representative or Soper with any concerns or special needs within the project area. Please be mindful of all workers in the construction zones.
