# Project Description

## Forest County Potawatomi Blackwell - CTH H Watermain Extension

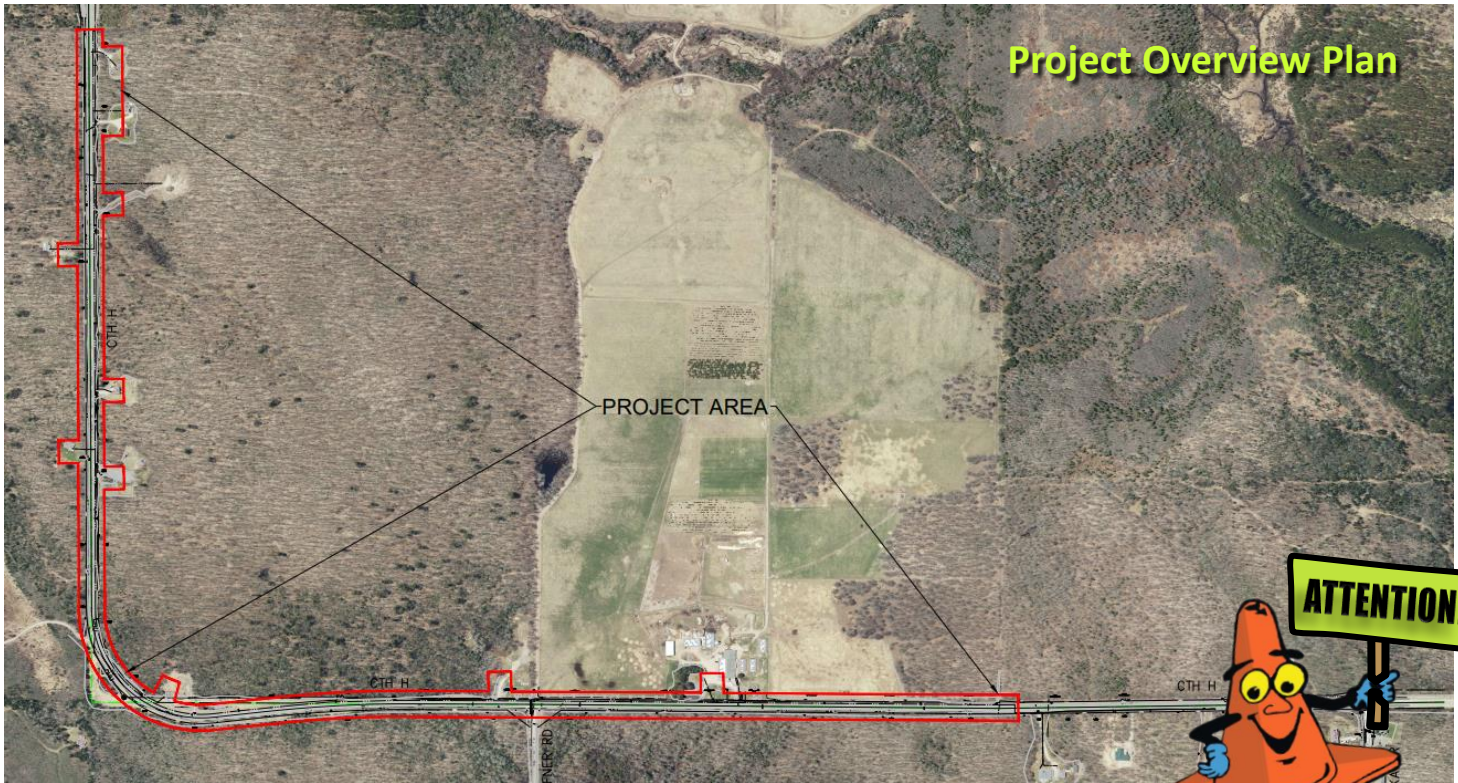

### NOTE TO INTERESTED PARTIES:

Additional Project information at [www.mcmgrp.com](http://www.mcmgrp.com) under RESOURCES\In Construction...select the **FCPC Blackwell - CTH 'H' Watermain Extension** project. You can also get project Tweets by following <https://twitter.com/McMFCPWatermain>

### Looking Ahead: Description and Upcoming Schedule of Work

The FCPC Blackwell - CTH 'H' Watermain Extension project is a continuation of the existing watermain on CTH H installed in 2016. The existing water main currently extends 2,100 feet south of Chief Wabeka Drive. This project will connect to the existing watermain and extend approximately 9,100 feet south, servicing residents from 3389 CTH H to 3025 CTH H. The 8-inch polyethylene watermain will be installed along the west and north side of CTH H along the ditch line. The watermain extension will provide service to the ten residences along the route and will include several hydrants to increase fire safety in the area. The project is scheduled to start in February 2023 and be completed by the end of July 2023.

Project Overview Plan

### Work will be starting on the Forest County Potawatomi Watermain Extension project!

A WEBPAGE has been created to keep you up-to-date on what is happening on this project and includes project contacts and access to informational documents.
