Project Update

Village of Belgium - 2026 Utility & Street Reconstruction Project

NOTE TO INTERESTED PARTIES: Additional Project information can be found at www.mcmgrp.com under **RESOURCES\In Construction** ...select the **Village of Belgium-2026 Utility & Street Reconstruction** project.

Week of August 24 - 28

This past week, the crew completed the installation of the new sanitary sewer main on East Lane. Also completed was the water main construction on Park Street and on East Lane.

Looking Ahead to Next Week:

Storm sewer construction is scheduled for the north end West Lane and the west end of Antoine Drive. Park Street water services will be installed, and sanitary and water service laterals will be constructed on East Lane.

Future Schedule:

With the contractor closing in on completing the sanitary mains, water mains, and service laterals throughout the project area, the remainder of the storm sewer and storm lateral installation will be the focus. The private sanitary sewer lateral contractor, Scott Lamers Construction, is anticipating starting work sometime in mid-September. Their office will begin making appointments with property owners prior to their arrival.

Regarding Storm Sewer Installation...

If you see a wooden stake appear in your front yard, with orange ribbon & marked "St Lat", this is the proposed location of your storm lateral. If you wish to adjust that location, depending on your intentions involving your future sump pump connection, please place the wooden stake at your desired location and the contractor will make all efforts to accommodate that location.

NOTES TO PUBLIC

Please drive with caution in construction areas. Contact the McMahon on-site representative or Vinton Construction with any concerns or special needs within the project area. Please be mindful of all workers in the construction zones. Thank you for your cooperation and patience.
