Project Update

Village of Belgium - 2026 Utility & Street Reconstruction Project

NOTE TO INTERESTED PARTIES: Additional Project information can be found at www.mcmgrp.com under **RESOURCES\In Construction** ...select the **Village of Belgium-2026 Utility & Street Reconstruction** project.

Week of Aug 31 - Sept 4

This past week, the crew worked mainly on installing main-line storm on West Lane. Multiple water services were also installed on Park Street.

Looking Ahead to Next Week (weather dependent):

Storm sewer construction will continue on Antoine Drive, Park Street, and East Lane. Sanitary and Water services on East Lane may begin.

Regarding Storm Sewer Installation...

Reminder- If you see a wooden stake appear in your front yard, with orange ribbon & marked "St Lat", this is the proposed location of your storm lateral. If you wish to adjust that location, depending on your intentions involving your future sump pump connection, please place the wooden stake at your desired location and the contractor will make all efforts to accommodate that location.

Future Schedule (weather dependent):

Street grading is scheduled to start the week of September 14th. This will include the removal of the existing subgrade, existing curb and gutter, and existing driveways. New subgrade material will be installed as they progress down your street. The contractor will endeavor to maintain driveway access throughout the grading process; however, you may experience brief access interruption to your driveway as the contractor works past your home. The private sanitary sewer lateral contractor, Scott Lamers Construction, is also anticipating starting his work the week of September 14th. Their office has begun the process of making appointments with property owners to complete this work.

NOTES TO PUBLIC

Please drive with caution in construction areas. Contact the McMahon on-site representative or Vinton Construction with any concerns or special needs within the project area. Please be mindful of all workers in the construction zones. Thank you for your cooperation and patience.
